EDUCATION

POSTING OF N.C.E. STUDENT TEACHERS FOR TEACHING PRACTICE

I hereby introduce to you the following NCE student from our College who, having satisfied the condition for enrolment to participate in this sessions teaching practice, chose to do his 24 weeks teaching Practice in your school From February To July.

I wish to appeal, that your institution is expected to attach the student teacher with a mentor and/experienced teacher that will mentor and guide him/her during the course of his TP exercise.

Please note that the student teacher would be supervised by teacher educators from the College for 8 of the 10 contacts. Your School is expected to supervise and grade them for the last two contacts, and forward this scores to the college for result compilation.

At the end of the exercise, a confidential report on the students may be written and forward together with the assessment made by the school after completion of all assigned duties/responsibilities.

Thank You.
